

1. The game you wish to import must be set up on Play Cricket and you will need a club ECB user name and password
2. When you have these, open up TCS, click Download fixture and open Yacadu webpage and follow the on-screen instructions
3. Enter user name and password then Download
4. Select club site & team and Highlight game required
5. Go to bottom of screen Down load match This will save file to Download folder
6. Now go to Yacadu home page log out & close
7. Back on TCS click Import match and browse to downloads folder to select file and import
8. Upload is just reverse. Export completed game to a folder
9. Open up Yacadu by clicking downloads. Enter your user name and password
10. But this time you click upload then browse and Select file you just exported and then Upload
11. You get message upload successful
12. Sign out Yacadu and check all correct on Play Cricket
